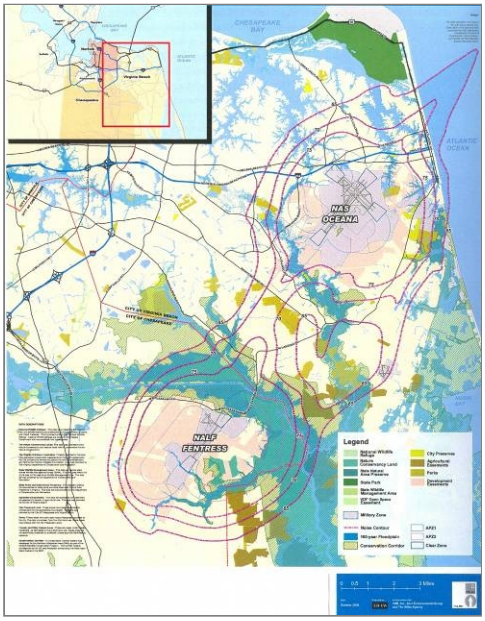
Kerr Environmental Services Corp.

Sustainable Ecological Restoration and Environmental Consulting

DEPARTMENT OF DEFENSE EXPERIENCE



District Commission, U.S. Navy, U.S. Department of Joint Land Use Study (JLUS), Hampton Roads Planning Defense, Cities of Virginia Beach, Chesapeake, and Norfolk, Virginia

Project received 2006 Master Plan Award from the Virginia Chapter, American Planning Association.

Kerr Environmental Services served as the environmental consultant to EDAW, additionally providing all GIS support for environmental information, for the Joint Land Use Study for the Hampton Roads Planning District Commission, the United States Navy, The United States Department of Defense (DoD), and the Cities of Virginia Beach, Chesapeake, and Norfolk. Kerr Environmental Services attended all Stakeholder and public meetings, prepared analysis of GIS data and prepared exhibits for for presentation to the workgroups and inclusion in the final report. During the process workgroup members identified questions that required further data analysis and presentation.

Kerr Environmental Services also reviewed City environmental/land use programs and compared them to land use goals of the City and the Navy and prepared recommendations incorporated into the final JLUS to achieve multiple beneficial outcomes (environmental, air operations and noise related).
