ENVIRONMENTAL PLANNING EXPERIENCE

Marshview Park Master Plan, City of Virginia Beach Parks and Recreation, Land Studio, Virginia Beach, Virginia Kerr Environmental Services is working with Land Studio, PC to receive permits to impact 0.029 acres of wetlands and waters of the U.S. (WOUS) for the multi-use trail improvements at Marshview Park in Virginia Beach, Virginia. A wetland delineation was performed on the 35 acre site prior to the permit application. The delineation was confirmed by the US Army Corps of Engineers (USACE). The USACE is in the process of reviewing an application for the proposed wetland impacts associated with the improvements which we believe satisfies the criteria contained in the Nationwide Permit Number 18.
