ENVIRONMENTAL PLANNING EXPERIENCE

Salem Park and Salem Lakes Park Shoreline Stabilization Improvements, City of Virginia Beach Parks and Recreation, Land Studio, Virginia Beach, Virginia Kerr Environmental Services has investigated shoreline stabilization alternatives for approximately 691 feet of shoreline at Salem Lakes Park. This investigation resulted in a report containing a Conditions Assessment, Alternatives Analysis, Construction Cost Estimates, Prioritized Recommendations, and an Evaluation of Environmental Permitting Needs. Following the selection of the Preferred Alternative by the City, design drawings will be prepared.
