

Kerr Environmental
Services Corp.

*Sustainable Ecological Restoration
and Environmental Consulting*

ENVIRONMENTAL PLANNING EXPERIENCE

**Virginia Aquarium and Marine Science Center (VAMSC),
City of Virginia Beach, Virginia** Kerr Environmental
Services performed a jurisdictional determination and
developed an expedited permitting procedure for the
installation of the \$12 million, *Red Sea Habitat
Exhibit*. In order to obtain the necessary permits in time for
the bidding of construction, Kerr Environmental Services
researched the pertinent regulations to identify a permitting
pathway that facilitated the necessary timeframe for the
City to maintain their schedule. Permits were secured from
the USACE prior to the bidding process.
