Services Corp.

*Sustainable Ecological Restoration
and Environmental Consulting*

NEPA DOCUMENTATION STUDIES

Witchduck Road Phase II, City of Virginia Beach, Virginia

Kerr Environmental Services is responsible for the completion and FHWA approval of a Categorical Exclusion document required by the National Environmental Policy Act (NEPA) for the VDOT and FHWA, as managed by the City through the

Virginia's First Cities Initiative (locally

administered VDOT projects). The proposed project plans entail widening of an

approximately 0.5-mile corridor comprised of commercial and institutional development.

Kerr Environmental is also responsible for performing the: Phase I and II ESA of the 32 commercial and institutional properties along the corridor; wetland delineation confirmation; integration of those and other findings into the NEPA document, and participation in Citizen Information Meetings.
